

SLIM

Stylish Simplicity, Dependable Durability

Featuring an elegantly simple design to maximize versatility and functionality for everyday use, the Raptic Slim phone case is a stylishly understated way to keep the latest smartphones protected at work and on the weekend. The low-profile dimensions and smooth shape of Slim make it easy to carry while wearing any type of attire, and the subtly textured edges add the perfect amount of grip. Constructed of impact-absorbing TPU with slightly thickened edges, Raptic Slim can withstand drops of up to six feet, providing reassurance for even the most hectic daily routine. Not only is Slim 100% recyclable, the incorporation of the innovative EcoElement™ ensures that it will also biodegrade completely if it happens to end up in a landfill when it is no longer in use. Shipped in packaging that is also 100% biodegradable, Raptic Slim is a certified carbon-neutral phone case for the eco-conscious customer who values sustainability as well as style and performance.

 **Military-Grade Drop Protection**

 **Low Profile Pocket-Friendly Design**

 **Protective Control Access**
